

Hauler Members

Oregon waste and recycling haulers are the core of Oregon Green School's support. In addition to providing hauling services and assistance to schools, each hauler sponsors the awards (flags, plaques) for the schools in their service area, provides Summit sponsorships for schools (substitute teacher and mileage reimbursement) and gives general support to Oregon Green Schools through their Oregon Refuse and Recycling Association memberships. Many of our regional Green School Coordinators are also hauler employees.

Thank you Oregon haulers for your generous and ongoing support!
